

WINS: SC20 Call for Participation Deadline Extended to 5/1/2020

Dear Colleagues,

I am writing to provide an update on the WINS application process for SC20. After careful consideration, the WINS management team has determined we will go ahead with the WINS program for SC20 but are extending the application deadline for WINS applications to May 1, 2020. Below is some additional information regarding the application process.

SC20 - We are in regular contact with the SCinet leads, including updates on changes to the SC20 schedule. Additional information on SC20 planning for COVID-19 can be found on the SC website [here](#).

WINS Applications - We understand the evolving challenges associated with the current COVID-19 environment, particularly associated with travel authorization. We understand that as of the application deadline (May 20, 2020), it may be difficult for the applicant and/or her management to provide a definitive statement regarding travel authorization as part of the application. We recommend that the submitted materials indicate that intent is to authorize the travel, but may change based on travel restrictions associated with COVID-19.

The **application deadline is May 1, 2020** at 11:59pm AoE; award notifications will be sent by mid to late May 2020. You can access the application here:
